OPERATIONS: Angeles Operation.

INFORMATION 3: Hey, this is Information 3, (b)(6)

OPERATIONS: Hey, what’s up, (b)(6)

INFORMATION 3: Hey, I’m leaving the Crest Highway area of the Station Fire en route back to Arcadia.

OPERATIONS: Okay. Now how long --

INFORMATION 3: That’s it.

OPERATIONS: How long are you going to be on tonight for?

INFORMATION 3: Probably till 10:00, 10:15. (b)(6)

OPERATIONS: Is just going as patrol -- what is
he -- what’s his --

INFORMATION 3: You know, yeah, he -- he’s not the patrol over there. Now, he’s actually working in Rec, so --

OPERATIONS: Oh. Okay. I --

INFORMATION 3: Yeah, he -- he’s still fire-qualified for PIO, but --

OPERATIONS: Okay.

INFORMATION 3: I -- I’m not sure.

OPERATIONS: Okay. So he’s not going by any, like, in-phone number?

INFORMATION 3: Well, yeah, he’s not on our info staff at Arcadia, but he’s kind of a district level.

OPERATIONS: Right.

INFORMATION 3: I think he’s a fully qualified 3, and he might be a Type II trainee next or something.

OPERATIONS: Yeah. Well, I’ll just call him by his Rec name.

INFORMATION 3: Yeah.

OPERATIONS: If I need him for something.

INFORMATION 3: Yeah.

OPERATIONS: All righty.

INFORMATION 3: I think he’s Rec 24; is that right?

OPERATIONS: What’s that? How’s it -- how -- how’s it looking in -- in La Canada?

INFORMATION 3: There’s some pretty -- pretty hot-and-
heavy activity this afternoon.

OPERATIONS: I’m -- I’m just curious --

INFORMATION 3: It’s jumping around in some of the canyons above the community. They’re really putting on a flame show tonight.

OPERATIONS: I’m -- I’m just curious, did -- did you at all deal with the Arroyo residences?

INFORMATION 3: Not yet, no. That’s on the --

OPERATIONS: Okay. I was -- because I lived down there --

INFORMATION 3: That’s one of the horizons for this weekend.

OPERATIONS: I lived down there for 12 years, and I was just wondering how they feared.

INFORMATION 3: Well, I was talking to (b)(6) at the Crest Station last night about that because he’s down there now, and, you know, it seems to not be going downhill very quick in there. It’s more contouring around the front.

OPERATIONS: Right.

INFORMATION 3: If you look at the evening map, it actually got up into the lower part of Switzer Canyon.

OPERATIONS: Uh-huh.

INFORMATION 3: And it’s into Bear Canyon, and it’s probably maybe a mile and a quarter northwest of (inaudible).

INFORMATION 3: Maybe -- maybe a mile and a half, so it,
you know, is going to burn to the east, and we’re trying to
keep it from really being established on the slope below Mount
Wilson --

OPERATIONS: Uh-huh.

INFORMATION 3: -- and -- and above Altadena, so --

OPERATIONS: Hey, what -- in your travels about, do you
have anything like an incident-action plan at all?

INFORMATION 3: Yeah. You need something?

OPERATIONS: Yeah. Hey, we don’t have anything here.

What we’re really short of is we need a -- we need an incident-
action plan for both fires, but what we really need --

INFORMATION 3: (Inaudible) --

OPERATIONS: -- but what we really need is we -- we need
communication numbers and stuff, and usually the -- the action
plan will have that.

INFORMATION 3: Yeah.

OPERATIONS: But we need, you know, like, the I --

INFORMATION 3: Yeah.

OPERATIONS: -- how to get a hold of the IC and all this
other stuff.

INFORMATION 3: You -- do we want to set up a thing where
you guys want to have one faxed to you from camp every day or
something?

OPERATIONS: Oh, if you -- if you could -- it’d be
instrumental and that, that’d be great.
INFORMATION 3: Yeah, who -- I’m -- who would normally do that within the team structure?

OPERATIONS: Well, you see that’s -- that’s where it gets kind of -- don’t they -- they -- God, who do they -- when you go to a fire, who’s -- who’s the person that’s in charge of the public affairs? What --

INFORMATION 3: Well, the -- yeah, Information is one whole unit.

OPERATIONS: Yeah.

INFORMATION 3: I would work with the team information people, but --

OPERATIONS: A lot --

INFORMATION 3: -- I would think that the --

OPERATIONS: The resource unit leader might --

INFORMATION 3: Yeah.

OPERATIONS: -- might be somebody that’s instrumental in -- in -- but it always happens with a team though. There’s just a whole bunch of -- you know, once our district turns it over to city -- the big guys when they come in --

INFORMATION 3: Okay.

OPERATIONS: -- we get -- we get kind of out of the loop --

INFORMATION 3: I know.

OPERATIONS: -- but it really helps -- it really helps --

INFORMATION 3: I -- I remind our PROs of that. I tell
them sometimes -- I tell them whatever your information is, share it, because don’t assume that Dispatch -- you know, if you guys know the evening acreage -- now we’re up to 5,100 acres.

OPERATIONS: Uh-huh. Yeah.

INFORMATION 3: And one -- and five percent contained.

OPERATIONS: Yeah.

INFORMATION 3: So I would think --

OPERATIONS: But when you get to the SO --

INFORMATION 3: -- the would think the (inaudible) unit leader possibly, but --

OPERATIONS: If -- if you -- if you have any -- any -- when you get to the SO, if you have any -- any kind of stuff that you could fax us, even if it’s like a -- a morning IAP, if you could do that, that’d be great.

INFORMATION 3: Yeah, well, I’ll -- I’ll -- I’ll grab you one and make sure you’re -- you have one at least tonight and just -- (661) 723-2910 --

OPERATIONS: 2710.

INFORMATION 3: Or 20 -- oh, 2710. Okay.

OPERATIONS: Yeah.

INFORMATION 3: Maybe that’s why (inaudible) go through. 2710, okay. Yeah, I’ll try to send that to you around -- it’ll be probably little -- 10:15 or so.

OPERATIONS: Oh, okay.
INFORMATION 3: But I can call you back when I’m off at Arcadia.

OPERATIONS: Angeles Operation, (b)(6) speaking.

CALLER Hey, (b)(6) This is (b)(6)

OPERATIONS: Hey, (b)(6)

CALLER Hey, I was just curious forest and admin, man, are pretty sapped. Have you guys given any thought to what we’re going to do if we break another fire today? Are we going to be frequency, man?

OPERATIONS: You know what, I’m going to -- you’re going to have to talk to (b)(6) or (b)(6) about that. We talked about, like, because law enforcement and everybody is going to be on -- is on Forest Net right now, so if something happens --

CALLER Yeah.
OPERATIONS: -- you know, the fire is going to take precedence over it. You know, they’re just going to maybe have to call over the phone with their incident, but in terms of, like, a tact tone and stuff, I don't know what they exactly want to use since everybody -- everything is completely --

CALLER Yeah, I know what (inaudible) --

CALLER I’m asking if you guys have given it any thought because -- like break a new fire, we’re going to --

OPERATIONS: Yeah.

CALLER -- do competition for air time and --

OPERATIONS: Oh, no, definitely understandable. I -- I know if we break a new one, we’re going to have it on, you know, Forest Net, that, I mean, and that --

CALLER Okay.

OPERATIONS: -- that -- so if that help you (inaudible) --

CALLER Yeah.

OPERATIONS: -- we definitely (inaudible). So it’s not going to not be on any of the frequencies. I mean if we get one, then I’ll do the response on forest and everything like -- like normal, (inaudible) what I’m going to use.

CALLER Okay. Hopefully we don’t have to go there, but I’m just kind of thinking ahead because --

OPERATIONS: Okay.

CALLER -- everything is so wrapped up.
OPERATIONS: Everything is, yeah, and -- and some of the fire trucks waiting on the Forest Net and -- and -- but that -- I mean that’s what I’m going to do later because I’m doing forest today. I’ll have -- yeah, and aircraft is also on Forest Net.

CALLER: Okay.

OPERATIONS: I’ll have -- maybe I’ll have or those guys can call and talk to you about what exactly they want the tact channels and stuff, because that’s kind of confusing with us too. It’s like, “Well, what do you want to use if it’s on our fire -- on our forest?”

So let me have -- are you going to be in your office?

CALLER: My cell -- cell will be the easiest.

OPERATIONS: Cell. Okay. I’ll have one of them call you and talk about if we do get one what’s going to happen.

OPERATIONS: Hey, [redacted]

CALLER [redacted] You’re -- you’re not busy, are you?

OPERATIONS: A little bit. What’s up?

CALLER [redacted] Hey, I -- I had a question out of curiosity. Do we have a command channel available to break a new start, and do we still have empty tacts available?

OPERATIONS: We have -- we do not have a command channel as far as Forest Net or Admin Net. Those are both -- well, we have Forest Net available. Admin is still being used by the Station Fire, and we have the City Tact 2 available for new starts, and I believe also Tact 3.

CALLER [redacted] Okay. I just wanted to make sure I knew what we might be doing.

OPERATIONS: Yeah, so any -- any new starts that we have, we’ll run it off of Forest Net, and any of the -- the frequencies will either be two or three.

CALLER [redacted] All right.

OPERATIONS: Depending on where the fire is at. If it’s on your side, it’s probably going to be using Tact 2 because the Morris may still be using 3, but as far as command we’ll -- we’ll use Forest Net.
CALLER: Okay. Hopefully we don’t have to go there.

OPERATIONS: It’s --

CALLER: Incident command team.

OPERATIONS: Yeah, it’s the incident command team.

They’re responsible for everything that has to do with the fire, and I can give you the number to the information center there who can direct you to somebody on the fire who you can speak to.

Because basically what happens, Ms. when we have a fire this magnitude on the forest, and now we have two of course, those teams -- the incident command teams come in and basically take all of the responsibility from this office and assume it themselves when they assume command, and so the -- the decisions like evacuations and road closures and when they’re open and being -- or when they’re being closed and reopened aren’t -- that aren’t the decision of the forest. They have to come from the incident command team based on the objectives of the fire, and I -- I can’t tell you why it’s still closed, but --

CALLER: Yes, but it’s closed back here, and there is no fire here on Highway 39.

OPERATIONS: Yeah.

CALLER: I mean there -- there’s no reason for.

OPERATIONS: Okay. And I -- and I can’t answer that. All I can -- I can direct you to the number that I have and they

OPERATIONS: Angeles Operation.

CALLER Yes, hello. I’m sorry to bother. This is Ms. (Inaudible.)

OPERATIONS: Yes, ma’am.
CALLER: Yeah, could you please give me the phone number of our fire department? I called (phonetic) regarding the road closure.

OPERATIONS: Yes, ma’am.

CALLER: And they say I have to speak to the fire department people.

OPERATIONS: Which fire department are you talking about, ma’am?

CALLER: First of all, they gave me the -- the number of Los Angeles Fire Department.

OPERATIONS: Okay.

CALLER: And then they gave me the number of our Forest Service fire department.

OPERATIONS: So which one do you want? Because the Forest Service one, no one is there. The only department that’s open right now would be the LA County Fire Department.

CALLER: Yeah, and they say they don’t have nothing to do with it, with our fire up here or with our road closures.

OPERATIONS: So who -- the -- the CHP is in charge of the road closure, ma’am.

CALLER: I spoke to a commanding officer there, and he say they have nothing to do with it. They just do the job, but it is the fire department that requested it that the road is still closed.

So you see, everybody is passing the key around and
(inaudible) the same people.

OPERATIONS: Yes, but you’re calling the wrong -- we’re the -- we’re only the Dispatch office.

CALLER [b] (6) I know.

OPERATIONS: So I don't know -- I mean I don’t have a number to the ICP to tell you who to go to.

CALLER [b] (6) No.

OPERATIONS: I mean I don’t know what to tell you, ma’am. I mean because you -- you already spoke with my supervisor on this matter previously.

CALLER [b] (6) I did?

OPERATIONS: Yes. Remember you called earlier and asked to speak to the supervisor here?

CALLER [b] (6) Yeah, okay.

OPERATIONS: So I mean --

CALLER [b] (6) (Inaudible) something.

OPERATIONS: Yes, ma’am. Yes, ma’am.

CALLER [b] (6) Yes, okay.

OPERATIONS: So I don't know what to -- to tell you, ma’am. I mean I want to help you --

CALLER [b] (6) I know.

OPERATIONS: -- but I -- I don't -- if my supervisor couldn’t help you, I don't know what to do.

CALLER [b] (6) I know. Well, I was just hoping, you know, that you could (inaudible) this one fire department
number, the one who ordered the road to be closed, you know, because Highway Patrol says it’s not their doing. They’re just, you know, doing their job.

///
c2727_28_08_2009_215030

OPERATIONS: Yeah. No, I understand. I guess they called and asked the request for the road closure, and that -- that number goes to -- that comes from the, you know, the fire being at a dangerous stage right now.

CALLER: Yeah.

OPERATIONS: So I mean didn’t they ask you guys to evacuate?

CALLER: It was voluntary, and (inaudible) stay, and also the family (inaudible) are staying because the fire is nowhere near us.

OPERATIONS: Yes.

CALLER: Plus now, the highway is clear. The telephone people came up and they got our line fixed, and they told us there is no -- nothing going on on the highway.

OPERATIONS: Oh.

CALLER: It’s clear on both sides.

OPERATIONS: Oh, yeah, I understand that, but there’s still a -- a potential for, you know --

CALLER: Yes.

OPERATIONS: -- the fire to make a run and --
CALLER: Yes.

OPERATIONS: -- you know, then you got to look at the safety matter of it.

CALLER: Sure.

OPERATIONS: I mean so I don't know what I could do to help you anymore.

CALLER: No, but you know what, I apologize. I usually (inaudible). It’s just, you know, my generator broke down, so -- and well, I need some additional supplies, you know.

OPERATIONS: Uh-huh.

CALLER: I just wonder how long I have to wait till somebody can get through from the top or from the bottom to bring some stuff up.

OPERATIONS: I don't know. Maybe -- I don't know. I mean there’s -- there’s people up -- up and down the Crest right now, you know, making sure it’s safe for -- but I -- I can’t -- I -- I do not really know what -- what to tell you and even how to help you, ma’am.

CALLER: No, it’s okay, but the fires are almost out, aren’t they?

OPERATIONS: Which fire are you live -- you near?

CALLER: Well, any one near Highway 39, like the Morris Fire.

OPERATIONS: Yeah, the Morris Fire is almost out.
CALLER: Yeah.

OPERATIONS: And you live up in that area; right?

CALLER: Yes, way, way up.

OPERATIONS: Yeah, that -- that one is -- okay, ma'am, can I put you on hold?

CALLER: Oh, sure.

///

c2727_28_08_2009_215330

OPERATIONS: Ms.

CALLER: Yeah.

OPERATIONS: Okay, ma’am, like I said -- I don’t even know -- I -- I can’t even find a number to lead you on.

CALLER: No.

OPERATIONS: Let --

CALLER: Well, I could ask the sheriff’s (inaudible) because (inaudible), and they say there’s nothing they can do, it’s not in their hands to do anything.

///

c2727_28_08_2009_215356

OPERATIONS: Yeah, I mean, we -- I don’t even have a number in the -- the -- the incident-action plan to even contact, you know.

CALLER: Right.

OPERATIONS: Because I mean -- I -- I don’t.

CALLER: No.
OPERATIONS: No, ma’am, and I’m looking through each page, and I don’t see a number, you know, for any type of assistance.

CALLER: No. Well, I don’t really need assistance. I just need one of the officers to make an exception when [inaudible] shows his driver’s license that states his residence (inaudible).

OPERATIONS: Yeah.

CALLER: But those officers don’t want to listen.

OPERATIONS: Yeah, and I understand that.

CALLER: Yes.

OPERATIONS: And those -- and -- and to be honest the -- the officers that live -- that’s down there are not Forest Service people.

CALLER: Yes.

OPERATIONS: They’re CHP, so they don’t know -- I -- I mean if -- they should see that -- that he is a local, and I don’t know why they’re not, and I don’t know why the road closure still is there for the Morris Fire. I mean I can’t tell you none of these things.

CALLER: No.

OPERATIONS: This -- this is the -- that is the incident commander who’s running -- who’s in charge of the fire.

CALLER: And who’s that?

OPERATIONS: I don’t know him.

CALLER: Yeah, is he from the Forest Service?
OPERATIONS: Yeah, but he’s not, like, locally.

CALLER (b) (6) Oh, okay.

OPERATIONS: I mean you say you know you have the number to the ranger and all of that; right?

CALLER (b) (6) Yes.

OPERATIONS: So I mean maybe those are the people that you should be trying to talk to.

CALLER (b) (6) I tried to, but nobody answers their phone. I left messages for Ms. (b) (6) she is our district ranger, and then I left messages for Mr. (inaudible). Now, he’s a wonderful gentleman, you know.

OPERATIONS: Okay. But, ma’am, I have to really go because we’re busy --

CALLER (b) (6) Yes, (inaudible).

OPERATIONS: -- and I don’t want to -- okay?

CALLER (b) (6) I apologize (inaudible).

OPERATIONS: That’s okay, ma’am. Okay.

CALLER (b) (6) Okay. Thank you.

OPERATIONS: Bye-bye.

CALLER (b) (6) Bye-bye.

OPERATIONS: Angeles Operation.

CALLER (b) (6) Hey, Captain (b) (6) here.

OPERATIONS: Uh-huh.
CALLER: I got a call from earlier requesting a helitanker for tomorrow.

OPERATIONS: Hold on one second.

CALLER: Thank you.

c2727_28_08_2009_221644

OPERATIONS: How could I help you?

CALLER: Hi, here at OCD.

OPERATIONS: Hi.

CALLER: Hey, I was looking for your fax and I haven’t got it yet. Did you send one?

OPERATIONS: I sent it once, and I’m sending it again right now.

CALLER: Okay. Are you ready to double-check the numbers?

OPERATIONS: Yes. Let me see, (213) 485-4782.

CALLER: That’s it.

OPERATIONS: Okay.

CALLER: Okay,

OPERATIONS: Okay.

CALLER: Bye.

OPERATIONS: Bye-bye.

CALLER: Oh, well --

OPERATIONS: Uh-huh.

CALLER: What’s the agency requesting?
OPERATIONS: U.S. Forest Service.

OPERATIONS: Okay. You’re welcome.

CALLER: Bye.

OPERATIONS: Bye-bye.

///

OPERATIONS: Angeles Operation.

CALLER: Yeah, I’m looking for the number for expanded overhead.

OPERATIONS: Overhead is -- the last four digits.

CALLER: Uh-huh.

OPERATIONS: 2594 or 2596. Either one of those will be -- get you to where you need to go.

CALLER: Thank you, sir.

OPERATIONS: You’re welcome.

CALLER: Bye-bye.

OPERATIONS: Angeles Operation.

DIVISION 2: Hey, It’s (b) (6) How are you doing?

OPERATIONS: Yes, (b) (6) I’m doing all right. Division 2 is in quarters.

OPERATIONS: In quarters. Okay, man. You have a good
night, all right?

DIVISION 2: All right. Thanks.

OPERATIONS: All right. Bye-bye.
