(b)(6) Hey, don’t know if you guys already know this but we just got some intel from a structure protection strike team leader in Big Tujunga Canyon. Says he believes as many as 5 to 20 structures have burned.
DISPATCH: Okay. Let me have you talk to — Hold
Okay.

Hey, it's the public information officer.

Hey, we just got some intel that -- from a strike team leader, who's doing structure protection in Big T Canyon that were on the Station Fire, that between 5 and 20 structures have burned he believes.

Okay. Can you tell me that again? Big T Canyon what?

Big T Canyon coming from somebody -- strike team leader in one of the structure protection groups. He thinks that between five and 20 structures have burned but --

Okay.

-- it's still very thick with smoke.

Okay.

And he's not entirely sure that everybody made it out.

Okay. And that -- that was the extent of the message.
the information regarding the burned people -- the burns?

I don’t know about that. I don’t have any info on that.

DISPATCH: The -- okay. Well, just so you know, we’ve got two separate incidents with three total patients -- civilians at this time with second- and third-degree burns.

Got it.

DISPATCH: (Inaudible) at Big T and they’re being transported by Air 5. We’re trying to transport by Air 5.

Got you. So these two things overlap? Okay.

DISPATCH: Yeah.

Okay.

DISPATCH: Okay.

Thank you.

DISPATCH: Uh-huh.

I’m at -- on Sunland Avenue right now. If I’m able to get in and relay any more info, I’ll let you know.

DISPATCH: Okay.

And we -- are we doing -- we need to notify and about that.

DISPATCH: Division 5 is actually up there, the one who’s been in the mix of all the injuries, and he’s been on the -- on the radio directly with

Got you.

DISPATCH: So --
Okay.

DISPATCH: But I will confirm that. And we’ve had contact with Chief 1 and Chief 2, so we’ll --

When you said it’s (inaudible) not (phonetic); right?

DISPATCH: Okay. I’ll confirm.

Okay. Thank you.

    DISPATCH: Angeles Operations.

    Oh, yes. My name is I -- my
family runs Hidden Springs Café.

CALLER: Okay.

On Angeles Forest Highway.

DISPATCH: Yes.

I’m down here in Burbank. I need to know what the conditions are up there.

DISPATCH: Yes, ma’am. Well, extreme fire behavior.

We’ve evacuated or have been evacuating up -- all of upper Big T, Sand Canyon, Bear Divide areas. The fire has gone north of Clear Creek. We’re evacuating like I said Big Tujunga Canyon, Little Tujunga Canyon, Sand Canyon. So in that area, to answer your question, you would not be able to get up right now; although, you’re a resident.

Well, I know -- I know I can’t get up there. My brother’s been -- been trying to collect all -- all the belongings and everything of our family.

DISPATCH: Okay. Yeah.

We’re right next to Monte Cisto Ranger Station.

DISPATCH: I know where it’s at. There are some folks that have been up in that area. I believe phone lines are down, I would imagine, electricity. I don’t know if I could -- I could do for you. I mean, we’re just here in dispatch. Everything is kind of out in the field (inaudible) way. I’m trying to think. It’s not looking good up there. Let me just
put it that way. What’s going on right there at the Monte Cristo area, I want to say that the fire is a little bit up and above that. But are you going to be able to get up that road? No.

Well, I know that. I know -- I could --

DISPATCH: A lot of folks up on the -- well, everything from Monte Cristo and (inaudible) upward, they’re heading out towards Highway 2 out towards Wrightwood. That’s the only way out.

They’re even having (inaudible) evacuated?

DISPATCH: If it’s in that area, yes. And --

(Inaudible.)

DISPATCH: Yes. And what’s the other thing? Do you know where Condor Peak is?

Yes, I do.

DISPATCH: Yeah. It’s just -- it’s reached Condor Peak so it’s basically going to head up hill toward the Santa Clara Divide. So looking down here where your place is at Monte Cristo -- let’s see --

Right in the middle of it (inaudible).

DISPATCH: Kind of in the middle of it. See Big -- yeah. So things aren’t looking very well there.

You know what? My mom is in Alaska on a cruise (inaudible) above the Café. My brother --

DISPATCH: Right.
DISPATCH: I know it’s -- it’s not pretty out. We’re looking to the north of the mountains here in Lancaster where we sit. So -- boy, I don’t what -- what -- Can I continue to call this line?

DISPATCH: No. I do have a number. Ma’am, hold on and don’t hang up, please.

Okay.

DISPATCH: Don’t hang up. I just want to acknowledge this unit on the air. One second.

Okay.

c2626_29_08_2009_142241

DISPATCH: Okay. Now, let me give you this number here. They might have a little bit more specific details on that area. What about Mill Creek? I know all that area is in evacuation, but what do you think about Mill Creek?

Yeah. We didn’t lose any structures or anything but I don’t know if that fire’s gone through there or not. I want to say it’s kind of -- like you said, it’s kind of like right
in the middle. Take down this number. I know it’s probably just a general information number, but they get a lot of the updates before we do here.

(b) (6) Okay.

DISPATCH: Believe it or not. (626) --

(b) (6) Uh-huh.

DISPATCH: -- 821 --

(b) (6) Okay.

DISPATCH: -- 6700.

(b) (6) Okay.

DISPATCH: And did we have any other FI PIO lines besides that 6700 number? It’s the main one; right? Just that one PIO number, 6700, is all we have?

Yeah. That’s the only one we have for you.

(b) (6) Okay.

DISPATCH: The fire has been transitioned to a large team, you know, here in dispatch we’re just doing normal things, assisting with the evacuations. But basically, that whole -- all those canyons are -- are experiencing extreme fire behavior and yes, evacuations have been in place.

(b) (6) Now, we survived one in -- the big one in 1979.

DISPATCH: Uh-huh.

(b) (6) -- 1980.

DISPATCH: Uh-huh.
And like everything around us burned up there.

DISPATCH: Well, a lot of times weather patterns will repeat themselves. So hopefully, that’s the case if the fire has already gone through. But I hope that helps. I don’t have any -- I don’t know what else to tell you.

Okay. Thank you very much.

DISPATCH:  Okay.

PATROL 31:  I’m sorry. That was 22 minutes, 25 seconds.

DISPATCH:  Twenty-two -- 22, 25; right?

PATROL 31:  Yes.
DISPATCH: Okay.

PATROL 31: Fourteen minutes.

DISPATCH: Uh-huh.

PATROL 31: Fifty-five seconds.

DISPATCH: Okay. Okay. We’ve got two helicopters getting ready to launch from Fox, a full brush, and we’re diverting aircraft from the station.

PATROL 31: (Inaudible) not part of the Station Fire?

DISPATCH: I don’t know.

PATROL 31: Okay. If you -- okay. And try to do what you can do about getting law enforcement on walking those roads and stopping that vehicle because I’m pretty sure --

DISPATCH: And what roads were those, you think?

PATROL 31: He was on 3 and 17.

DISPATCH: Three and 17 to what? To what road?

PATROL 31: I don’t know. Heading towards -- he was on 3 and 17 heading towards (inaudible). So if you look through (inaudible) point.

DISPATCH: I’m sorry. You broke off. Heading towards where? Did you say North Fork? Are you there?

PATROL 31: Yeah.

DISPATCH: Three and 17 heading towards where?

PATROL 31: Well, he was (inaudible) north -- northeast.

DISPATCH: Northeast. And you said it was a (b)(7)(A) pickup?

PATROL 31: Maybe a (b)(7)(A).
DISPATCH: Okay. Okay.

PATROL 31: Okay. Thank you.

DISPATCH: You’re welcome.

PATROL 31: Oh.

DISPATCH: Yeah?

PATROL 31: (Inaudible) partial plate.

DISPATCH: Okay. Go with the plate. Are you there? Go with the plate.

PATROL 31: Sup 16 has the license plate.

PATROL 31: Sorry. I’m just trying to drive and talk.

DISPATCH: Okay.

PATROL 31: (Inaudible.)

DISPATCH: So you said it’s about 50 acres.

PATROL 31: It looks like there’s multiple --

DISPATCH: Fifty acres on this new one. I’m on the phone with Patrol 31. Are you in a safe spot? I think he’s still driving.

PATROL 31: I’m -- okay. I’m trapped right now.

DISPATCH: You’re trapped?

PATROL 31: (inaudible) black on one. I have good black on my downhill side.

DISPATCH: Okay. Let me see if I can get your spot on my CAD and we can --

PATROL 31: Okay.
DISPATCH: -- send some air --

PATROL 31: Okay. I got to go.

PATROL 31: Hey, this is Patrol 31.

DISPATCH: Yes, sir. How’s it going?

PATROL 31: Hey, I just went round the corner. So I got good cell service at the (inaudible).

DISPATCH: Yeah, I know (inaudible). Yeah. You’re sounding good. Well, it looks like it -- it was one of the main fires then, huh? Good eye -- good eyes, though, up there, man.

PATROL 31: So was it a new fire or was it part of the main fire?

DISPATCH: Well, I’m hearing that it’s part of the main fire. But did you need to talk to Patrol 31?

PATROL 31: If he has any questions, you know, I don’t know.

DISPATCH: Patrol 31. You want to talk to Patrol 31? Did you have any LE information to pass on for the truck or what?

PATROL 31: No. You know what? I didn’t get a good description of it at all. I thought there was two people in it. Okay, but --

DISPATCH: No. He’s at the fire. He never got back to
me.

**PATROL 31:** Look. But --

**DISPATCH:** He got the message to get (inaudible) so you know how to reach him. I left messages in that station. Hey,

**PATROL 31:** Yeah.

**DISPATCH:** Did you have any information on that truck you saw?

**PATROL 31:** No. Other than it was an old pickup. But look. Okay. Sup 16 said he got a partial plate. So if you can contact Sup 16.

**DISPATCH:** Yeah. That’s what we’re working on. Yeah. Sup 16, but he took off into the -- into the twilight. Where’s he at?

**PATROL 31:** I don’t know.

**DISPATCH:** I called the station. I left a message with his foreman and it had to do with Battalion 11 pretty big time too, so he’s got the message. So --

**PATROL 31:** Have you tried him on the radio? Because he was on F2. He’s on Forest Net.

**DISPATCH:** I’m not going to get on Forest Net during this fire initial attack to get a plate.

**PATROL 31:** Oh, okay.

**DISPATCH:** We can get a plate later if he’s got a plate. But where’s that truck at? Or did you move on up the road?
PATROL 31: It was -- he was going north on 3 and 17.

DISPATCH: So he just -- okay. Well, it was truck.
I mean, was it like a Ford or a Toyota? New? Old?

PATROL 31: It looked like it was maybe like in the style.

DISPATCH: Okay. Well -- well, we’ll follow up with Sup
16 later. I got a message in with when all that was going
down.

PATROL 31: Okay.

DISPATCH: And then I lost him on Forest Net.

PATROL 31: Okay.

DISPATCH: And he had left the station already to drive.
So anyways, we’ll get that, but if -- if -- we’ll put that all
together later. We’ll get the fire now. But did you need to
tell You got any questions for -- I mean for
Okay. That’s it, man.

PATROL 31: Okay. If any of the chiefs (inaudible), you
know, you can let them know I’m headed toward North Fork. I
got a little bit of damage to my truck here.

DISPATCH: Well, that’s okay. I don’t need to tell them
on the air. Just, you know, as long as you’re (inaudible).

PATROL 31: No, no, no, no. I mean, you know, if they
call in.

DISPATCH: Right. Well -- we’ll handle it later. I mean,
good eyes out there, though, man. Good calling that in.
PATROL 31: Geez. You know, I couldn’t tell if it was a new start or what because all I -- there’s a little bit of fire. It was only a little bit and I drove through it and then there was fire like -- like spots everywhere. I mean, it wasn’t even like one spot. There was like spots everywhere. So I didn’t know what I was seeing. And then when I came back, there was like another spot. And so I could have kept going, but then I would have been in a drainage if I got caught.

DISPATCH: Well --

PATROL 31: You know? So there was no way that I was going to get caught in a drainage, so I kind of had to stay where I was at.

DISPATCH: Well, good deal on that man. Good -- good move out there.

PATROL 31: But -- all right. So I’m going -- I’m going to try to get out of here if I can.

DISPATCH: Well, do what you can. But, I mean, just keep in touch with your whoever -- who’s the IC? Battalion 11? Just -- just talk to them out there because you’re on that incident.

PATROL 31: Okay. Is Battalion 11 --

DISPATCH: Battalion 11 I think became the IC, yeah. Let me see. Yes.

PATROL 31: Okay.

DISPATCH: Angeles Operations.

PATROL 31: Hi. This is Patrol 31. I couldn't get out on the radio. I was going to (inaudible).

DISPATCH: You're at North Fork right now?

PATROL 31: (Inaudible) Battalion 11 is the IC of this fire?

DISPATCH: Well, we're still trying to figure that out because it looks like this is going to be either a spot or a huge run from the Station Fire.

PATROL 31: Okay. (Inaudible) from the residents here at North Fork is that there was no fire before that truck drove through. Right after the truck drove through, that's when there was a fire everywhere.

DISPATCH: Okay. So from the North Fork residents, there was --

PATROL 31: And there was no fire before the truck passed by.

DISPATCH: Before the truck came through?

PATROL 31: (Inaudible.)

DISPATCH: Fire started shortly after he went through?
PATROL 31: Yes. Because basically (inaudible) contact on the radio (inaudible).

DISPATCH: Are you guys -- okay. Hey, do we know anything about structure protection for North Fork? Do you guys -- what are you guys -- are you guys being affected right now? Are you there?

PATROL 31: Yep.

DISPATCH: Are you guys being affected right now?

PATROL 31: Okay. Right now, the fire is still a little ways off.

DISPATCH: Okay. So you guys -- you guys are going to need structure protection --

PATROL 31: (Inaudible.)

DISPATCH: -- at -- okay. Hey, Did you have anything for Patrol 31? I have him on the phone. He’s at North Fork Station. You’re at the station or you’re at somebody’s residence?

PATROL 31: I’m at the (inaudible).

DISPATCH: There are residents at the station?

PATROL 31: Yes.

DISPATCH: Hey, I’m going to get on -- he’s on the line also. He might -- I think he has some questions for you.

DISPATCH: Hey, (b)(6)

PATROL 31: Yeah.

DISPATCH: So you’re at North Fork’s residences?
PATROL 31: Yes.

DISPATCH: Hey, listen. I want Air 5 to land and check you out, all right? Do you think you need it?

PATROL 31: (Inaudible.)

DISPATCH: I know you have, but you’re still out by yourself, though; right? Or have you -- did you find that helicopter that we had on the ground?

PATROL 31: Okay. Right now, I’m with the residents at North Fork.

DISPATCH: Okay. But, I mean, as far as any other firefighters, though, you’re still by yourself; right?

PATROL 31: I’m still by myself.

DISPATCH: And what about -- did we -- we -- are we going to need to get those people out of North Fork?

PATROL 31: Okay. Right now --

DISPATCH: Forty-five minutes.

PATROL 31: -- there’s only one person here with -- at North Fork. He does have a truck.

DISPATCH: Uh-huh.

PATROL 31: I think he’s considering staying.

DISPATCH: Okay. Because the other thing we could do is have Air 5 get him out of there if we need to because the air techs talk -- the air tech we have over the area is also talking about some civilian people in the area that are wearing (inaudible) but in civilian type cars. Is that you guys?
PATROL 31: Yes. There’s one. There’s just one of them.

(Inaudible.)

DISPATCH: Okay. Because we -- if we need to get him out of there, you know, I don’t know how the roads are going to be and too long. But I still want to have Air 5 at least get on the ground and give you a quick check, all right?

PATROL 31: Okay. You know what? (Inaudible.)

DISPATCH: Okay. Well --

PATROL 31: They do it all the time. (Inaudible.)

DISPATCH: And when you say, “truck,” are you talking about your patrol vehicle; right?

PATROL 31: Yes.

DISPATCH: Okay.

DISPATCH: And did you scorch your rig or anything like that?

PATROL 31: I got a little scorch.

DISPATCH: Okay. We’ll -- we’ll check with the other divisions to see what they want to do. I mean, I understand what you’re saying that you’re -- you’re pretty much fine and all that stuff. So we’ll pass that on and just let them decide. How’s that since they’re the bosses?

PATROL 31: Okay.

DISPATCH: So -- and I understand your statement that it’s not really up -- necessarily a safe situation to put them on the ground right now.
PATROL 31: Okay. And also, I’ll be available --
DISPATCH: Yeah. He is.

PATROL 31: Yeah.

DISPATCH: Battalion 11 says secure your vehicle and we’re going to fly you out.

PATROL 31: Okay. I got to go inside (inaudible). Okay. Say that again.

DISPATCH: Battalion 11 is advising you, not advising you, Battalion 11 is commanding you to secure your vehicle and get
in the helicopter and fly out.

PATROL 31: Okay. Now, is that with the resident also?

Well, you know what? He has a dog. I don’t think he’s going (inaudible). I don’t think he’s going to fly with his dog, but -- okay. Here’s the thing. If the resident’s going to go then --

DISPATCH: Did -- are -- is 531 on the ground with you?

PATROL 31: Yes. 531 is right here standing in front of me.

PATROL 31: Okay. I copy. I got to let you go.

Hey, this is Info 3. I’m leaving the Station

DISPATCH: Okay there, 

Okay. Can you guys see this fire from Fox
Field?

DISPATCH: We’ve been busy in here. I can’t --

(b)(6) I bet that you can.

DISPATCH: Really?

(b)(6) I can’t -- I was in Big T Canyon all day watching cabins burn, but I bet you can step outside and see the glow from there.

DISPATCH: I’ll be darn.

(b)(6) This thing is shot -- I’ve -- I’ve heard that it might be north of Santa Clara Truck Trail.

DISPATCH: Hey, by the -- by the way, what do you think the chances are of it hitting the city of Tujunga?

(b)(6) What do you -- like, what do you mean? Tujunga Proper or?

DISPATCH: Yeah, Tujunga Proper. You know --

(b)(6) I’d say not -- not very likely. We lost it going in a northerly direction more or less across (inaudible) Road today.

DISPATCH: Yeah.

(b)(6) You know, and it -- and it ran through Big T and there was pretty significant structure loss but -- but it’s only really lateral spread to the west from there. So I -- I think it’s -- I’d say pretty confident that --

DISPATCH: Yeah.

(b)(6) -- (inaudible). It’s really LA County structure
protection, but --

DISPATCH: Yeah. Okay.

(b)(6) Yeah, I don't know. Do you live in that area?

DISPATCH: Yeah. I live in Sunland.

(b)(6) Sunland, yeah.

DISPATCH: Yeah. And I'm more towards the freeway.

(b)(6) Yeah.

DISPATCH: But if it was a wind-driven fire, man, I don't

know what this thing would have done. I mean --

(b)(6) Well, you're exactly right. And -- you know

when you take Ora Vista and it wraps around and the golf course

is on the left --

DISPATCH: Right, right.

(b)(6) -- and you're going up?

DISPATCH: Right.

(b)(6) The hard closure was up at Tree Farm on the

right, the little nursery.

DISPATCH: Oh, okay.

(b)(6) And they were actually doing evac -- hard -- you

know, mandatory evacuation of, like, where the ball fields are

and that equestrian center.

DISPATCH: Right.

(b)(6) (Inaudible) camp.

DISPATCH: Right.

(b)(6) So it was coming over the hill when I left a few
hours ago, it’s going to be backing down. But I -- you know, it’s not open flame front with wind behind it.

DISPATCH: Yeah.

(b) (6) It’s just a lateral spread backing down. So --

DISPATCH: Okay.

(b) (6) (Inaudible.) But I’m telling you, we got our butts kicked today.

DISPATCH: Yeah, yeah.

(b) (6) It looks -- they’re calling it, like, 20,000 acres now.

Hey, this is Info 3,

I’m out of service in Arcadia.

DISPATCH: Out of service in Arcadia. Okay.

Yep.

DISPATCH: Okay.

You guys got any questions? They keeping you up-to-date out there?

DISPATCH: Yeah. Hold on just a minute. Let me see if anyone else has questions.

///

DISPATCH: Hey,

Hey.

DISPATCH: Not -- not really. I mean, you know, we’re just getting bits and pieces but again, it’s one of those things where the morning will tell.

Do you guys have like a -- like a camp phone list for all the incident management team people and --
DISPATCH: No.

-- that kind of stuff?

DISPATCH: No. We need -- you know, we still need those numbers.

I don’t either. But I saw that our info center here has that. They’re open all night, the 821-6700.

DISPATCH: Oh, okay.

It’s -- it’s hanging on the front office door.

DISPATCH: Uh-huh.

To the visitor information area. They -- so they could probably fax that to you.

DISPATCH: Yeah.

Or, you know, just any other -- just making sure they’re sharing information with you and, you know, I’m out in the field. I was in Big T Canyon most of the day and saw quite a bit. So I was calling in information to confirm back to them.

DISPATCH: Right.

Into our -- to the ICP and so on. So this thing just went crazy today. It went, like, probably quadrupled in size.

DISPATCH: Right. Yeah.

So -- and you guys know if any media calls -- and I told the info center here in Arcadia, 10:00 a.m. tomorrow at the ICP, the governor’s going to be there and there’s going
to be another news conference on the status of the fire.

DISPATCH: Oh, okay.

(b) (6) So Schwarzenegger will be there.

DISPATCH: Okay.

(b) (6) Yep, 10:00 a.m. So -- it’s kind of a weird time, 10:00 a.m. on a Sunday, but --

DISPATCH: Right.

(b) (6) -- so -- okay. Well, yeah. We’ll just keep reminding them if whatever kind of stuff you guys need out there to -- to be sharing that.

DISPATCH: Okay.

(b) (6) So we -- I think our biggest issue we’ve had is that the sheriff’s department really does not have their own call center for evacuation questions. They have us handling --

DISPATCH: They haven’t told us yet, no.

(b) (6) -- fire info questions --

DISPATCH: As far as we know.

(b) (6) -- (inaudible) questions.

DISPATCH: No. Not -- they’re still out there. Oh, okay.

Uh-huh.

(b) (6) So -- yeah, it’d be nice if the sheriff’s department had their own call center.

DISPATCH: Yeah.

(b) (6) For the public. I mean, that’s kind of something that’s been missing. We’ve been handling a lot of
the evac questions down here.
