

National Woodland Owner Survey Summary Tables

Family Forest Ownerships (1-9 acres)

Southern United States*, 2011-2013

* Includes Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, and Virginia.

Suggested citation: Butler, Brett J.; Snyder, Stephanie A. 2017. National Woodland Owner Survey: family forest ownerships with 1 to 9 acres, 2011-2013. Res. Bull. NRS-114. Newtown Square, PA: U.S. Department of Agriculture, Forest Service, Northern Research Station.

Separate sets of survey summary tables are included for the nation and three regions (North, South, and West). The naming convention for tables is Table XX-# where XX indicates the region or nation abbreviation and # indicates the table number.

Table South-1.—Estimated area of forest land by ownership category, Southern United States, 2013

Table South-2.—Table number skipped in order to match table numbers in Butler et al. (2016c)

Table South-3.—Estimated area and estimated number of family forest ownerships (1-9 acres) by ownership subcategory, Southern United States, 2011-2013

Table South-4.—Estimated area and estimated number of family forest ownerships (1-9 acres) by number of owners, Southern United States, 2011-2013

Table South-5.—Estimated area and estimated number of family forest ownerships (1-9 acres) by percent of ownership's land that is forested, Southern United States, 2011-2013

Table South-6.—Estimated area and estimated number of family forest ownerships (1-9 acres) by size of forest holdings, Southern United States, 2011-2013

Table South-7.—Estimated area and estimated number of family forest ownerships (1-9 acres) by number of parcels owned, Southern United States, 2011-2013

Table South-8.—Estimated area and estimated number of family forest ownerships (1-9 acres) that are within 1 mile of ownerships' primary residences, Southern United States, 2011-2013

Table South-9.—Estimated area and estimated number of family forest ownerships (1-9 acres) that are within 1 mile of ownerships' vacation homes, Southern United States, 2011-2013

Table South-10.—Estimated area and estimated number of family forest ownerships (1-9 acres) that are within 1 mile of ownerships' farms, Southern United States, 2011-2013

Table South-11.—Estimated area and estimated number of family forest ownerships (1-9 acres) by reason for owning forest, Southern United States, 2011-2013. Numbers include ownerships that rated an objective as very important or important on a five-point Likert scale.

Table South-12.—Estimated area and estimated number of family forest ownerships (1-9 acres) by type and source of forest land acquisition, Southern United States, 2011-2013

Table South-13.—Estimated area and estimated number of family forest ownerships (1-9 acres) by land tenure, Southern United States, 2011-2013

Table South-14.—Estimated area and estimated number of family forest ownerships (1-9 acres) by frequency of selling or giving away forest land and recipients of this land, Southern United States, 2011-2013

Table South-15.—Estimated area and estimated number of family forest ownerships (1-9 acres) by decisionmaker, Southern United States, 2011-2013

Table South-16.—Estimated area and estimated number of family forest ownerships (1-9 acres) by written management plan status, Southern United States, 2011-2013

Table South-17.—Estimated area and estimated number of family forest ownerships (1-9 acres) by activities that cut or removed trees, Southern United States, 2011-2013

Table South-18.—Estimated area and estimated number of family forest ownerships (1-9 acres) by types of timber products and trees cut or removed (simplified), Southern United States, 2011-2013

Table South-19.—Estimated area and estimated number of family forest ownerships (1-9 acres) by use of professional foresters for timber harvesting, Southern United States, 2011-2013

Table South-20.—Estimated area and estimated number of family forest ownerships (1-9 acres) by activities related to nontimber forest products (NTFPs), Southern United States, 2011-2013

Table South-21.—Estimated area and estimated number of family forest ownerships (1-9 acres) by activities related to nontimber forest products (NTFPs; simplified), Southern United States, 2011-2013

Table South-22.—Estimated area and estimated number of family forest ownerships (1-9 acres) by past 5 years' forestry activity, Southern United States, 2011-2013

Table South-23.—Estimated area and estimated number of family forest ownerships (1-9 acres) by next 5 years' forestry activity, Southern United States, 2011-2013. Numbers include ownerships that rated an activity as extremely likely or likely on a five-point Likert scale.

Table South-24.—Estimated area and estimated number of family forest ownerships (1-9 acres) by lease status, Southern United States, 2011-2013

Table South-25.—Estimated area and estimated number of family forest ownerships (1-9 acres) by familiarity with and participation in cost-share programs, Southern United States, 2011-2013

Table South-26.—Estimated area and estimated number of family forest ownerships (1-9 acres) by familiarity with and participation in green certification programs, Southern United States, 2011-2013

Table South-27.—Estimated area and estimated number of family forest ownerships (1-9 acres) by familiarity with and participation in forestry related property tax programs, Southern United States, 2011-2013

Table South-28.—Estimated area and estimated number of family forest ownerships (1-9 acres) by familiarity with and status of easements that restrict land use conversions, Southern United States, 2011-2013

Table South-29.—Estimated area and estimated number of family forest ownerships (1-9 acres) by who recreated on the forest land and type of recreation, Southern United States, 2011-2013

Table South-30.—Estimated area and estimated number of family forest ownerships (1-9 acres) by whether the ownership has its forest land posted to restrict public access and type of restriction, Southern United States, 2011-2013

Table South-31.—Estimated area and estimated number of family forest ownerships (1-9 acres) by advice received in the preceding 5 years and advice source, Southern United States, 2011-2013

Table South-32.—Estimated area and estimated number of family forest ownerships (1-9 acres) by type of assistance desired by ownership, Southern United States, 2011-2013. Numbers include ownerships that rated a topic as very helpful or helpful on a five-point Likert scale.

Table South-33.—Estimated area and estimated number of family forest ownerships (1-9 acres) by preferred methods to receive forest management information, Southern United States, 2011-2013. Numbers include ownerships that rated a method as very useful or useful on a five-point Likert scale.

Table South-34.—Estimated area and estimated number of family forest ownerships (1-9 acres) by ownerships' concerns, Southern United States, 2011-2013. Numbers include ownerships that rated an issue a great concern or concern on a five-point Likert scale.

Table South-35.—Estimated area and estimated number of family forest ownerships (1-9 acres) by ownerships' likelihood of selling or giving away land in the next 5 years and who is likely to receive it, Southern United States, 2011-2013

Table South-36.—Estimated area and estimated number of family forest ownerships (1-9 acres) by ownerships' agreement/disagreement about statements related to keeping land forested and selling forest land, Southern United States, 2011-2013

Table South-37.—Estimated area and estimated number of family forest ownerships (1-9 acres) by primary and secondary owners' retirement statuses, Southern United States, 2011-2013

Table South-38.—Estimated area and estimated number of family forest ownerships (1-9 acres) by primary and secondary owners' occupations, Southern United States, 2011-2013

Table South-39.—Estimated area and estimated number of family forest ownerships (1-9 acres) by primary and secondary owners' ages, Southern United States, 2011-2013

Table South-40.—Estimated area and estimated number of family forest ownerships (1-9 acres) by primary and secondary owners' genders, Southern United States, 2011-2013

Table South-41.—Estimated area and estimated number of family forest ownerships (1-9 acres) by primary and secondary owners' highest levels of formal education attained, Southern United States, 2011-2013

Table South-42.—Estimated area and estimated number of family forest ownerships (1-9 acres) by primary and secondary owners' ethnicities and races, Southern United States, 2011-2013

Table South-43.—Estimated area and estimated number of family forest ownerships (1-9 acres) by ownerships' annual household income, Southern United States, 2011-2013

Table South-44.—Estimated area and estimated number of family forest ownerships (1-9 acres) by ownerships' percent of household annual income derived from forest land owned, Southern United States, 2011-2013

Table South-1.—Estimated area of forest land* by ownership category, Southern United States, 2013**

Ownership Category	Totals		Percentages	
	Acres	SE ^a	Acres	SE ^a

All ownerships				
Total	266,449	1,040	100.0	<1.0

* Includes land defined as “forest” and “woodland” in (Oswalt et al. 2014). Forest land is defined as “land at least 120 feet (37 meters) wide and at least 1 acre (0.4 hectare) in size with at least 10 percent cover (or equivalent stocking) by live trees including land that formerly had such tree cover and that will be naturally or artificially regenerated” including land “recently having such conditions and currently regenerating or capable of attaining such condition in the near future.” Woodland is defined as land that is “predominantly of stands of sparse woodland species...found in the arid to semiarid regions of the interior western United States. These areas must span more than 1 acre (0.4 hectare), have sparse trees capable of achieving 16.4 feet (5 meters) in height in situ, and a tree canopy cover of 5-10 percent.” Neither forest land nor woodland includes “land that is predominantly under agricultural or urban land use.”

** See Table 9 in Butler et al. (2016a) for the specific inventory years of the U.S. Forest Service, Forest Inventory and Analysis program (www.fia.fs.fed.us) plot data used for forest area estimates.

^a SE = standard error

^b Includes nongovernmental conservation organizations, unincorporated partnerships, associations, and clubs.

Note: Data may not add to totals due to rounding.

Table South-2.–Table number skipped in order to match table numbers in Butler et al. (2016c)

Table South-3.—Estimated area and estimated number of family forest ownerships (1-9 acres) by ownership subcategory, Southern United States, 2011-2013

Ownership subcategory	Totals				Percentages				n
	Acres	SE ^a	Owner- ships	SE ^a	Acres	SE ^a	Owner- ships	SE ^a	
	----- thousands -----				----- percent -----				
Individual	2,634	358	824	145	35.4	5.6	31.7	6.5	61

Total ^c	7,652	588	2,684	272	100.0	—	100.0	—	188

^a SE = standard error

^b Excluded from percentages.

^c Due to differences in the questions asked on different questionnaire forms, i.e., the phone questionnaire being a subset of the mail questionnaire, the effective sample sizes differ for some questions. This can result in estimated totals not being identical across tables and subtables.

Note: Data may not add to totals due to rounding.

Table South-4.—Estimated area and estimated number of family forest ownerships (1-9 acres) by number of owners*, Southern United States, 2011-2013

	Totals				Percentages				n
