

Acknowledgments

This document draws on data and maps from numerous published and unpublished sources including information about the number and status of forest associated species from Curt Flather, forest fragmentation from Kurt Riitters, and carbon sequestration from Christopher Woodall. U.S. Forest Service Forest Inventory and Analysis information spanning 60 years is cited throughout this report. Patrick Miles, John Vissage, and Brad Smith were especially helpful in locating the most current and comprehensive sources of forest resource inventory information.

Reviewers who provided valuable comments include: Mary Beth Adams, Gina Childs, Debra Dietzman, Justine Gartner, Kurt Gottschalk, Eric Gustafson, Katherine LaJeunesse, Kenneth Laustsen, Donald Mansius, Dennis May, Steven Milauskas, Gus Raeker, Phillip Rodbell, Steven Sinclair, Kenneth Skog, and Barbara Tormoehlen. Susan Wright, Carol Whitlock, and Rhonda Cobourn provided editorial guidance and support.

We thank them all
