Proceedings of the Sudden Oak Death Fourth Science Symposium

June 15-18, 2009, Santa Cruz, California

The **Forest Service** of the U.S. Department of Agriculture is dedicated to the principle of multiple use management of the Nation's forest resources for sustained yields of wood, water, forage, wildlife, and recreation. Through forestry research, cooperation with the States and private forest owners, and management of the national forests and national grasslands, it strives—as directed by Congress—to provide increasingly greater service to a growing Nation.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

To file a complaint of discrimination write USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W. Washington, DC 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.

Pesticide Precautionary Statement

This publication reports research involving pesticides. It does not contain recommendations for their use, nor does it imply that the uses discussed here have been registered. All uses of pesticides must be registered by appropriate state or federal agencies, or both, before they can be recommended.

CAUTION: Pesticides can be injurious to humans, domestic animals, desirable plants, and fish or other wildlife--if they are not handled properly. Use all pesticides selectively and carefully. Follow recommended practices for the disposal of surplus pesticides and pesticide containers.

Proceedings Disclaimer

Papers were provided by the authors in camera-ready form for printing. Authors are responsible for the content and accuracy. Opinions expressed may not necessarily reflect the position of the U.S. Department of Agriculture.

Technical Coordinators

Susan J. Frankel is Sudden Oak Death Research Program Manager, U.S. Department of Agriculture Forest Service, Pacific Southwest Research Station, 800 Buchanan Street, West Annex Building, Albany, CA 94710-0011 (e-mail address: sfrankel@fs.fed.us).

John T. Kliejunas is a regional forest pathologist (retired), U.S. Department of Agriculture Forest Service, Pacific Southwest Region, 1323 Club Drive, Vallejo, CA 94592-1110 (e-mail address: Kliejunas@comcast.net).

Katharine M. Palmieri is public information officer for the California Oak Mortality Task Force, Center for Forestry, 163 Mulford Hall No. 3114, University of California Berkeley, CA 94720-3114 (e-mail address: kpalmieri@berkeley.edu).

Abstract

Frankel, Susan J.; Kliejunas, John T.; Palmieri, Katharine M., tech. coords.

2010. Proceedings of the Sudden Oak Death Fourth Science Symposium. Gen. Tech. Rep. PSW-GTR-229. Albany, CA: U.S. Department of Agriculture, Forest Service, Pacific Southwest Research Station. 378 p.

The Sudden Oak Death Fourth Science Symposium provided a forum for current research on sudden oak death, caused by the exotic, quarantine pathogen, *Phytophthora ramorum*. Ninety submissions describing papers or posters on the following sudden oak death/*P. ramorum* topics are included: biology, genetics, nursery and wildland management, monitoring, ecology, and diagnostics.

Keywords: Sudden oak death, *Phytophthora ramorum*, invasive species, tanoak, coast live oak.

Table of Contents

- 1 **Sudden Oak Death: A Global Update**
- 3 Detection and Eradication of *Phytophthora ramorum* from Oregon Forests, 2001–2008
Alan Kanaskie, Everett Hansen, Ellen Michaels Goheen, Nancy Osterbauer, Michael McWilliams, Jon Laine, Michael Thompson, Stacy Savona, Harvey Timeus, Bill Woosley, Wendy Sutton, Paul Reeser, Rick Shultz, and Dan Hilburn
- 6 *Phytophthora ramorum* and *Phytophthora kernoviae* in England and Wales—Public Consultation and New Programme
Keith Walters, Claire Sansford, and David Slawson
- 15 ***Phytophthora* Concerns**
- 17 Some Challenges of Recognizing Invasive *Phytophthoras* and Finding Their Origins
Everett Hansen
- 22 Spread of *P. ramorum* from Nurseries into Waterways—Implications for Pathogen Establishment in New Areas
Gary Chastagner, Steven Oak, Daniel Omdal, Amy Ramsey-Kroll, Katie Coats, Yana Valachovic, Chris Lee, Jaesoon Hwang, Steven Jeffers, and Marianne Elliott
- 27 **Emerging *Phytophthora* Species and Related Issues**
- 29 Distribution and Severity of Alder *Phytophthora* in Alaska
G.C. Adams, M. Catal, and L. Trummer
- 50 Detection of Possible *Phytophthora pinifolia* Infection in *Pinus radiata* Green Sawn Timber Produced in Chile
R. Ahumada, C. Díaz, M. Peredo, C. Barría, P. González, and G. Cuevas
- 58 GSOB ≠ SOD: Tree Mortality from the Goldspotted Oak Borer in Oak Woodlands of Southern California
Tom W. Coleman and Steven J. Seybold
- 65 **Nurseries**
- 67 A Systems Approach for Detecting Sources of *Phytophthora* Contamination in Nurseries
Jennifer L. Parke, Niklaus Grünwald, Carrie Lewis, and Val Fieland
- 69 Detection of *Phytophthora ramorum* at Retail Nurseries in the Southeastern United States
Steven N. Jeffers, Jaesoon Hwang, Yeshe A. Wamishe, and Steven W. Oak
- 72 Within-Field Spread of *Phytophthora ramorum* on Rhododendron in Nursery Settings
Kurt Heungens, Isabelle De Dobbelaere, Bjorn Gehesquière, Annelies Vercauteren, and Martine Maes

- 76 Importance of Rainfall and Sprinkler Irrigation in Supporting Sporulation, Spread of Inoculum in Runoff-Water, and New Infections of *Phytophthora ramorum* Under Field Conditions
Steve Tjosvold, David Chambers, and Elizabeth Fichtner
- 78 A Test System to Quantify Inoculum in Runoff from *Phytophthora ramorum*-Infected Plant Roots
Nina Shishkoff
- 81 **Biology I**
- 83 Persistence of *Phytophthora ramorum* and *Phytophthora kernoviae* in U.K. Natural Areas and Implications for North American Forests
Elizabeth J. Fichtner, David M. Rizzo, Joan Webber, Susan A. Kirk, and Alistair Whybrow
- 85 Symptoms Associated with Inoculation of Stems on Living Douglas-fir and Grand Fir Trees with *Phytophthora ramorum*
Gary Chastagner, Kathy Riley, Katie Coats, Marianne Elliott, Annie DeBauw, and Norm Dart
- 87 Effects of *Phytophthora ramorum* Infection on Hydraulic Conductivity and Tylosis Formation in Tanoak Sapwood
Jennifer Parke, Bradley Collins, Barb Lachenbruch, and Everett Hansen
- 88 Virulence, Sporulation, and Elicitin Production in Three Clonal Lineages of *Phytophthora ramorum*
Daniel Manter, Everett Hansen, and Jennifer Parke
- 89 California Bay Laurel Susceptibility to *Phytophthora ramorum* Depends Upon Season, Leaf Age, and Fungal Load
Steve Johnston, Nathan Rank, Michael Cohen, and Ross Meentemeyer
- 93 **Diagnostics and Mycology**
- 95 ELISA and ImmunoStrip[®] for Detection of *Phytophthora ramorum*, *P. kernoviae*, and Other *Phytophthora* Species
Francisco. J. Avila, Barbara Schoedel, Z. Gloria Abad, Michael D. Coffey, and Cheryl Blomquist
- 97 Mating of *Phytophthora ramorum*: Functionality and Consequences
Xavier Boutet, Annelies Vercauteren, Kurt Heungens, and Anne Chandelier
- 101 Unstable Aneuploid Progenies of *Phytophthora ramorum*
Annelies Vercauteren, Xavier Boutet, Anne Chandelier, Kurt Heungens, and Martine Maes
- 105 **Genetics and Resistance**
- 107 Tracking Populations and New Infections of *Phytophthora ramorum* in Southern Oregon Forests
Jennifer Britt, Simone Prospero, Niklaus Grünwald, Alan Kanaskie, and Everett Hansen

- 110 Genetic Diversity of *Phytophthora ramorum* in Belgium
Annelies Vercauteren, Isabelle De Dobbelaere, Martine Maes, and Kurt Heungens
- 114 An Update on Microsatellite Genotype Information of *Phytophthora ramorum* in Washington State Nurseries
Katie Coats, Gary Chastagner, Norm Dart, Meg M. Larsen, and Niklaus J. Grunwald
- 116 Population Genetic Analysis Reveals Ancient Evolution and Recent Migration of *P. ramorum*
Erica M. Goss, Meg Larsen, Ignazio Carbone, Donald R. Givens, Gary A. Chastagner, and Niklaus J. Grünwald
- 119 **Predicting Risk**
- 121 Predicting the Spread of Sudden Oak Death in California (2010–2030): Epidemic Outcomes Under No Control
Ross K. Meentemeyer, Nik Cunniffe, Alex Cook, David M. Rizzo, and Chris A. Gilligan
- 122 Strategies for Control of Sudden Oak Death in Humboldt County—Informed Guidance Based on a Parameterized Epidemiological Model
João A. N. Filipe, Richard C. Cobb, David M. Rizzo, Ross K. Meentemeyer, and Christopher A. Gilligan
- 126 Mapping the Risk of Sudden Oak Death in Oregon: Prioritizing Locations for Early Detection and Eradication
Tomáš Václavík, Alan Kanaskie, Ellen Goheen, Janet Ohmann, Everett Hansen, and Ross Meentemeyer
- 133 Regulatory Considerations in Assessing the Potential for *Phytophthora ramorum* to Cause Environmental Impact to Ecozones Outside the West Coast “Fog Belt” in North America
John McDonald, Gary Kristjansson, Stephen Miller, and Shane Sela
- 139 Development of a Pest Risk Analysis for *Phytophthora ramorum* for the European Union; the Key Deliverable from the EU-Funded Project RAPRA
Claire Sansford, Alan Inman, and Joan Webber
- 154 Evidence of the Dynamic Response of Housing Values to a Sudden Oak Death Infestation
Kent F. Kovacs, Thomas P. Holmes, Jeffrey E. Englin, and Janice Alexander
- 169 **Biology II**
- 171 Ancestral Seed Zones and Genetic Mixture of Tanoak
Richard Dodd, Zara Rafii, and Wasima Mayer
- 183 Tanoak Resistance: Can it be Used to Sustain Populations?
Katherine J. Hayden, Alex Lundquist, Douglas J. Schmidt, Richard A Sniezko, Susan J. Frankel, and Matteo Garbelotto

- 189 Relationship Between Resistance to *Phytophthora ramorum* and Constitutive Phenolic Chemistry in Coast Live Oaks and Northern Red Oaks
Annemarie M. Nagle, Matteo Garbelotto, Brice McPherson, David L. Wood, and Pierluigi Bonello
- 193 Variation in Density and Diversity of Species of *Phytophthora* in Two Forest Stream Networks
Jaesoon Hwang, Steven N. Jeffers, and Steven W. Oak
- 197 Biosecurity Protocols for Heritage Gardens
Ian Wright and David Slawson
- 202 Susceptibility of Australian Plant Species to *Phytophthora ramorum*
Kylie Ireland, Daniel Hüberli, Bernard Dell, Ian Smith, David Rizzo, and Giles Hardy
- 207 Long-Term Trends in Coast Live Oak and Tanoak Stands Affected by *Phytophthora ramorum* Canker (Sudden Oak Death)
Tedmund J. Swiecki and Elizabeth Bernhardt
- 210 Impacts of *Phytophthora ramorum* on Oaks and Tanoaks in Marin County, California Forests Since 2000
Brice A. McPherson, David L. Wood, Maggi Kelly, Sylvia R. Mori, Pavel Svihra, Andrew J. Storer, and Richard B. Standiford
- 213 Sudden Oak Death in Redwood Forests: Vegetation Dynamics in the Wake of Tanoak Decline
Benjamin Ramage and Kevin O'Hara
- 217 Community and Individual Effects on SOD Intensification in California Redwood Forests: Implications for Tanoak Persistence
Richard C. Cobb, Joao A. N. Filipe, Ross K. Meentemeyer, Chris A. Gilligan, Shannon C. Lynch, and David M. Rizzo
- 221 **Management/Treatment**
- 223 Efficacy of Commercial Algacides to Manage Species of *Phytophthora* in Suburban Waterways
G. Curtis Colburn and Steven N. Jeffers
- 225 Aerial Application of Agri-Fos® to Prevent Sudden Oak Death in Oregon Tanoak Forests
Alan Kanaskie, Everett Hansen, Wendy Sutton, Paul Reeser, and Carolyn Choquette
- 233 Eradication Effectiveness Monitoring in Oregon Tanoak Forests
Ellen Michaels Goheen, Alan Kanaskie, Everett Hansen, Wendy Sutton, Paul Reeser and Nancy Osterbauer
- 236 Assessing Methods to Protect Susceptible Oak and Tanoak Stands from Sudden Oak Death
Tedmund J. Swiecki and Elizabeth Bernhardt

- 239 Forest Treatment Strategies for *Phytophthora ramorum*
Yana Valachovic, Chris Lee, Jack Marshall, and Hugh Scanlon
- 249 **Fire and Social Impacts**
- 251 Effects of Sudden Oak Death on the Crown Fire Ignition Potential of
Tanoak (*Lithocarpus densiflorus*)
Howard Kuljian and J. Morgan Varner
- 258 Interacting Disturbances: Did Sudden Oak Death Mortality in Big Sur
Worsen the Impacts of the 2008 Basin Complex Wildfire?
Margaret Metz, Kerri Frangioso, Ross Meentemeyer, and David Rizzo
- 262 Understanding the Long-Term Fire Risks in Forests Affected by Sudden
Oak Death
Yana Valachovic, Chris Lee, Radoslaw Glebocki, Hugh Scanlon,
J. Morgan Varner, and David Rizzo
- 271 Sudden Oak Death Mortality and Fire: Lessons from the Basin Complex
Chris Lee, Yana Valachovic, Susan Frankel, and Katie Palmieri
- 280 The Social Impacts of Sudden Oak Death and Other Forest Diseases: A
Panel Discussion
Janice Alexander and Chris Lee
- 281 **Posters**
- 283 Status of California's *Phytophthora ramorum* Stream Survey
Kamyar Aram and David M. Rizzo
- 285 Sampling Cankers and Lesions on Eastern Forest Plant Species for
Phytophthora spp. and Associated Organisms
Yilmaz Balci, William L. MacDonald, and Kurt Gottschalk
- 288 An Evaluation of *Phytophthora ramorum* Preventative Treatments for
Nursery and Forest Understory Plants in British Columbia, Canada
Elisa Becker, Grace Sumamong, Simon F. Shamoun, Marianne Elliott,
Aniko Varga, Saad Masri, Delano James, Karen Bailey, and
Susan Boyetchko
- 292 *Phytophthora ramorum* Recovery from 12 Big Sur Watersheds Following
Wildfires in 2008
Maia M. Beh, Kerri Frangioso, Akiko Oguchi, Kamyar Aram,
and David M. Rizzo
- 293 Multiplex Real-Time PCR for Detection of *Phytophthora ramorum*, the
Causal Agent of Sudden Oak Death
Guillaume J. Bilodeau, Richard C. Hamelin, Gervais Pelletier, Françoise
Pelletier, and C. André Lévesque
- 295 Within Tree Intensive Sampling Leads to the Recovery of Multiple
Genotypes of *Phytophthora ramorum* in Southern Oregon Tanoaks
Jennifer Britt and Everett Hansen

- 297 Waiting for SOD: Sudden Oak Death and Redwood National and State Parks
Monica Bueno, Janelle Deshais, and Leonel Arguello
- 302 Effect of Fungicides on the Isolation of *Phytophthora ramorum* from Symptomatic and Asymptomatic Rhododendron Leaf Tissue
Gary Chastagner, Annie DeBauw, and Kathy Riley
- 305 Effect of Surface Sterilization Treatments on the Detection and Viability of *Phytophthora ramorum* on Various Substrates
Katie Coats, Kathy Riley, Gary Chastagner, and Marianne Elliott
- 307 Phosphonate Treatment to Control *Phytophthora cinnamomi* Infection of Ione Manzanita, *A. myrtifolia*
Ellen Crocker and Matteo Garbelotto
- 308 Predicting Sudden Oak Death in Redwood National and State Parks: Ecological Niche Modeling of Key Transmission Host Species Using Maximum Entropy
Janelle Deshais, John Stuart, Steven Steinberg, and Leonel Arguello
- 313 *Phytophthora ramorum*–Pathogenic Fitness Among the Three Clonal Lineages
Clare R. Elliott, Virginia McDonald, and Niklaus J. Grünwald
- 314 Susceptibility, Severity, and Sporulation Potential of *Phytophthora ramorum* on Several *Rhododendron* Species and Hybrids
Marianne Elliott, Gary Chastagner, Katie Coats, Annie DeBauw, and Kathy Riley
- 317 Phenotypic Variation in *Phytophthora ramorum*: Wild Type vs Non-Wild Type Isolates
Marianne Elliott, Grace Sumampong, Simon F. Shamoun, Elisa Becker, Aniko Varga, Delano James, Saad Masri, and Niklaus J. Grünwald
- 319 Ecology of *Phytophthora ramorum* in Watercourses: Implications for the Spread and Management of Sudden Oak Death
Elizabeth Fichtner, Kamyar Aram, and David Rizzo
- 320 Emergence of *Phytophthora cinnamomi* in a Sudden Oak Death-Impacted Forest
Elizabeth J. Fichtner, David M. Rizzo, Tedmund J. Swiecki, and Elizabeth A. Bernhardt
- 322 The Big Sur Ecological Monitoring Plot Network: Distribution and Impacts of Sudden Oak Death in the Santa Lucia Mountains
Kerri Frangioso, Margaret Metz, Allison Wickland, David Rizzo, and Ross Meentemeyer
- 324 Landscape Epidemiology of Species Diversity Effects on Disease Risk
S.E. Haas, M. Metz, K. Frangioso, D. Rizzo, and R.K. Meentemeyer
- 325 Effects of Sudden Oak Death on Habitat Suitability for the California Spotted Owl (*Strix occidentalis occidentalis*) in the Big Sur Ecoregion
Emily Holland, James Hart, Kevin Cooper, Mark Borchert, Kerri Frangioso, David M. Rizzo, and Ross K. Meentemeyer

- 326 Influence of Nitrogen Fertility on the Susceptibility of Rhododendrons to *Phytophthora ramorum*
Rita L. Hummel, Marianne Elliott, Gary Chastagner, Robert E. Riley, Kathy Riley, and Annie DeBauw
- 328 Stream Baiting for Sudden Oak Death: Fluvial Transport and Ecohydrology of the Invasive Plant Pathogen *Phytophthora ramorum* in Western Washington State
Regina Johnson
- 332 Evaluation of Diurnal Rhythms in *Phytophthora*
Takao Kasuga and Mai Bui
- 334 OakMapper 2.0: Distributed Participatory Sensing for Monitoring and Management of Sudden Oak Death
Maggi Kelly, John Connors, and Shufei Lei
- 338 Quantifying Large-Scale Impacts of Sudden Oak Death on Carbon Loss in the Big Sur Basin Complex Fire: Upscaling From the Plot to Region
Sanjay Lamsal, Ross K. Meentemeyer, Qingmin Meng, Margaret Metz, Richard Cobb, Kerri Frangioso, and David M. Rizzo
- 339 The California Oak Mortality Task Force and *Phytophthora ramorum* Outreach
Chris Lee, Janice Alexander, and Katie Palmieri
- 340 Oregon's Grower Assisted Inspection Program: an Audit-Based System to Manage *Phytophthora* Diseases
Melissa Lujan, Gary McAninch, and Nancy Osterbauer
- 344 Effect of Plant Sterols and Tannins on *Phytophthora ramorum* Growth and Sporulation
Daniel Manter, Eli Kolodny, Rick Kelsey, and Pilar González-Hernández
- 345 The Santa Lucia Preserve: A Case Study of Community-Based Sudden Oak Death Sampling Blitzes
Cheryl M. McCormick and Matteo Garbelotto
- 347 Ambrosia Beetles and Their Associated Fungi Appear to Accelerate Mortality in *Phytophthora ramorum*-Infected Coast Live Oaks
Brice A. McPherson, David L. Wood, Nadir Erbilgin, and Pierluigi Bonello
- 349 Mapping the Distribution of Sudden Oak Death at the Urban-Wildland Interface: Tilden Park in Berkeley, California
Brice A. McPherson, David L. Wood, Maggi Kelly, and Gregory Biging
- 351 Mapping the Impacts of Sudden Oak Death Tree Mortality on Severity of the Big Sur Basin Complex Fire
Qingmin Meng, Sanjay Lamsal, Emily Holland, Douglas Shoemaker, Margaret Metz, Kerri Frangioso, David M. Rizzo, and Ross K. Meentemeyer

- 353 *Phytophthora ramorum* in USA Streams From the National Early Detection Survey of Forests
Steven W. Oak, Jaesoon Hwang, Steven N. Jeffers, and Borys M. Tkacz
- 355 The *Phytophthora* Online Course: Training for Nursery Growers
Jennifer L. Parke, Jay Pscheidt, Richard Regan, Jan Hedberg, and Niklaus Grünwald
- 356 Establishment of *Phytophthora ramorum* Depends on Woodland Diversity and Species Composition
Nathan Rank, Hall Cushman, Ross Meentemeyer, and David Rizzo
- 358 Using Rain Bucket Spore Traps to Monitor Spore Release During SOD Eradication Treatments in Oregon Tanoak Forests
Paul Reeser, Everett Hansen, Wendy Sutton, Alan Kanaskie, Jon Laine, Michael Thompson, and Ellen Michaels Goheen
- 362 Chip-Based On-Site Diagnosis of *Phytophthora ramorum*
M. Riedel, S. Julich, M. Kielpinski, R. Möller, W. Fritsche, S. Wagner, T. Henkel, A. Breitenstein, and S. Werres
