

Acknowledgments

The editors wish to acknowledge the contributions of all the synthesis team to this endeavor, along with many others who provided input and reviews of previous drafts. The team wishes to thank leadership from Region 5 and the Pacific Southwest (PSW) Research Station for investing significant resources into this effort. In particular, we wish to acknowledge Joe Stringer, Deb Whitall, and Ron Pugh from the Region 5 planning staff for their support, Becky Estes and Michelle Coppoletta from the Region 5 Ecology program for timely and pertinent feedback on drafts, as well as Jane Hayes and Rick Bottoms from PSW Research Station leadership for overseeing coordination of this project and for Jane's comprehensive review and editing. We acknowledge representatives of the California Forestry Association and Sierra Forest Legacy for their important role in bringing this science synthesis to fruition and providing feedback on draft versions. In addition, we thank other members of the public who provided comments through the Sierra Cascades Dialog sessions and direct correspondence to the PSW Research Station and Lenya Quinn-Davidson.
