This Annual Granger-Thye (GT) Fee Offset Agreement is made by [name] (the Holder) and the U.S. Department of Agriculture, Forest Service, [name] National Forest (the Forest Service), under section 7 of the G-T Act, 16 U.S.C. 580d, and clause IV.E of the special-use permit issued to the holder on [date] (the permit).

The total estimated annual permit fee is [amount]. [____] percent of that permit fee may be offset by the cost incurred by the Holder for the Government maintenance, reconditioning, renovation, or improvement (MRRI) projects listed below in accordance with this agreement. Additionally, [____] percent of that fee may be offset by the cost incurred by the Forest Service for the Government MRRI projects under a separate collection agreement. Projects to be performed by the Holder shall be completed by the date specified and within the Holder’s fiscal year for the year the fee is due. The Forest Service may modify the projects and dates as necessary, after consultation with the Holder.

The actual cost of each project that is satisfactorily completed as determined by the Forest Service may be offset against the holder’s permit fee. Due dates and cost estimates for completion of each project are enumerated below. Examples of allowable costs include salaries and wages, materials and supplies, and subcontracts that are direct costs of a G-T fee offset project and indirect costs based on an approved indirect cost rate. The total cost for Government MRRI projects to be performed under this agreement shall not exceed the annual fee.

Upon a determination by the Forest Service that a project has been satisfactorily completed by the holder, the holder shall submit documentation of its actual cost to the Forest Service and shall certify that the representations in that documentation are accurate and complete. The certification shall be signed and dated, and shall state that failure to sign the certification shall vitiate the fee offset claim. The Forest Service shall verify that documentation before giving any credit against the holder’s permit fee, and reserves the right not to grant any fee offset if any of the representations in the documentation is inaccurate or incomplete.

The Holder shall perform the work itemized below under this agreement.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0596-0082.
This information is needed by the Forest Service to evaluate requests to use National Forest System lands and manage those lands to protect natural resources, administer the use, and ensure public health and safety. This information is required to obtain or retain a benefit. The authority for that requirement is provided by the Organic Act of 1897 and the Federal Land Policy and Management Act of 1976, which authorize the Secretary of Agriculture to promulgate rules and regulations for authorizing and managing National Forest System lands. These statutes, along with the Term Permit Act, National Forest Ski Area Permit Act, Granger-Thye Act, Mineral Leasing Act, Alaska Term Permit Act, Act of September 3, 1954, Wilderness Act, National Forest Roads and Trails Act, Act of November 16, 1973, Archeological Resources Protection Act, and Alaska National Interest Lands Conservation Act, authorize the Secretary of Agriculture to issue authorizations for the use and occupancy of National Forest System lands. The Secretary of Agriculture's regulations at 36 CFR Part 251, Subpart B, establish procedures for issuing those authorizations.

The Privacy Act of 1974 (5 U.S.C. 552a) and the Freedom of Information Act (5 U.S.C. 552) govern the confidentiality to be provided for information received by the Forest Service Public Reporting burden for collection of information, if requested, is estimated to average 1 hour per response for annual financial information; average 1 hour per response to prepare or update operation and/or maintenance plan; average 1 hour per response for inspection reports; and an average of 1 hour for each request that may include such things as reports, logs, facility and user information, sublease information, and other similar miscellaneous information requests. This includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.
