2210.1 - Authority

See FSM 2201 for authorities related to rangeland management planning.

2210.2 - Objectives

In addition to the objectives set forth at FSM 2202, rangeland management planning should be carried out to further the following objectives:

1. Ensure recognition and consideration of rangeland ecosystem health and rangeland management in Land Management Plans (LMPs).
2. Provide for enhanced protection of rangeland ecosystems and restoration of rangeland ecosystems that are not meeting or moving toward desired conditions.
3. Provide for management of rangeland ecosystems and efficient accomplishment of land management goals and objectives in coordination with user groups and individuals.
4. Ensure that project planning efforts contribute toward meeting programmatic resource management direction found in LMPs.
5. Ensure that project planning is conducted in compliance with applicable Federal law and regulation.

Additional direction regarding how to carry out these objectives can be found in FSH 2209.13, Grazing Permit Administration Handbook, chapter 90 Rangeland Management Planning.
