i-Tree: Using Urban Forest Data to Improve Forest Management

Wednesday June 9, 2021 | 1:00 – 2:15pm ET

The i-Tree suite of free, online software has many tools to aid in understanding local forests and improving urban forest management. At this special webinar, we will hear from the lead Forest Service scientist **Dr. David Nowak** about what the i-Tree data are telling us after more than 30 years of data gathering and reporting. We will learn what are the trends in tree cover in our cities and how to use i-Tree to obtain urban forest data important to you at the national, regional and local scale. In addition, we will learn how new science related to urban forest threats nationally and tree effects on air temperature and human health will be presented within i-Tree. Finally, we will have a presentation from **Justin Bower**, principal planner for the Houston-Galveston Area Council, on how his 13-county region is using the Nation's forest census and [My City's Trees](#) to guide coordinated efforts in urban forest management, flood mitigation, and source-water protection.

This webinar is open to all. We are seeking 1 CEU with the International Society of Arboriculture. Check our [website](#) for updates and to watch recordings of previous webinars.

Contact the Urban Forest Technology & Science Delivery Team at SM.FS.urban@usda.gov with questions, feedback, requests for special accommodations, or speaker suggestions. To receive future webinar notices and announcements, [sign up for our mailing list](#). Please feel free to forward this announcement to interested parties.

Please use the information below to connect to the webinar:

1. FIRST TIME USERS: MAKE SURE YOU CAN CONNECT

If you have never attended an Adobe Connect meeting before, test your connection before the webinar. Go to:

https://usfs.adobeconnect.com/common/help/en/support/meeting_test.htm

2. CONNECT TO THE WEBINAR ON YOUR SYSTEM

Go to: <https://usfs.adobeconnect.com/ucf/>

3. AUDIO

Broadcast audio through your computer or use the information below to connect via telephone conferencing:

Toll-free: 1-888-251-2949 or 1-215-861-0694

Participant code: 7096631##

[Need an international dial-in number?](#)

4. TROUBLESHOOTING

Unable to join the meeting? Call Adobe Connect at 1-800-422-3623.

Need help with telephone conferencing? Call AT&T Connect Support at 1-888-796-6118.

Presented by the USDA Forest Service National Urban Forest Technology & Science Delivery Team

Please Note: All webinars will be recorded.
