

Note – Terry Mayes is the CFLRP contact for the National Forest Advisory Board

April 22, 2010

To: Whom it may concern

From: Captain Terry Mayes - South Dakota Highway Patrol - retired

Subject: Collaborative Forest Landscape Restoration Program
Black Hills National Forest

I have read and approve of the current plan submission to the above noted restoration program. I believe that the plan sets out a program that will help support a healthy National Forest in a way that benefits all users and residents of the forest.

I represent only myself, but I am a board member of the South Dakota Wildlife Federation, the Black Hills Sportsmans' Club, as well as a member of a citizen advisory board to the South Dakota Game fish and Parks Department. I am also a volunteer with the South Dakota Wild Grassland Coalition. These groups represent about 3500 citizens of South Dakota. I write this letter with the knowledge that these groups support the concept of a healthy forest and this type of forest management.

I strongly urge you to choose the Restoration Program request for the Black Hills National Forest.

Sincerely,

A handwritten signature in cursive script that reads "Terry Mayes". The signature is written in black ink and is positioned above the typed name and address.
