Hardware requirements for Midas

The requirements for MIDAS are:

1. A computer (desktop/laptop) that is running windows (XP, Vista, Windows 7).
2. Access to the Internet.
3. A handheld that is running Windows CE.net version 4.1 or higher or windows mobile including TDS Ranger and Juniper Systems Allegro CE, CX or MX.

Forest Service crews using Midas program use Allegro CE, and in general screen displays are optimized for Allegro's

For detailed questions about software, or hardware requirements; contact Mark Rubey at the USFS IWFIA Program (mrubey@fs.fed.us, 801-625-5647)
