

## National Programmatic Agreement for Phasing Section 106 of the National Historic Preservation Act

# Question & Answer Session for Tribes

The National Phasing Programmatic Agreement (Phasing PA) proposes to increase coordination between the agency and consulting parties to address Section 106 compliance at the beginning of large-scale and multi-year projects. The Forest Service has addressed, and incorporated comments received on the Phasing PA outline (see note). For this series of two-part question and answer sessions, participants are invited to first independently watch a video about the changes made in the PA draft and the upcoming consultation period, and in the second part, discuss any questions with Forest Service National Heritage Program and Office of Tribal Relations staff.

<b>SCHEDULE</b>		
<i>If you are unable to attend the session for the Region your Tribe is associated with, you are welcome to attend any another session.</i>
