

RAIN BARREL

What is a rain barrel?

A rain barrel collects and stores rainwater for you until you are ready to use it in your garden. It can save you money on your water and electric bills. It is also a good way to store water for dry periods.

Why?

The Forest Service promotes conservation and wise resource use. Conserving water is an important part of this effort.

How else can I promote conservation in my yard?

Composting food scraps and lawn clippings is an easy way to get beautiful black fertilizer for your lawn and garden...for free! The black plastic barrel that you see is our easy-to-use compost bin.
