

Wasatch-Cache National Forest Albion Basin Wildflower Viewing Area

Directions:

On the east side of Salt Lake City take I-215 to the 6200 South off-ramp. Drive south following the road signs to Alta Ski Resort. Drive up Little Cottonwood Canyon to the end of the paved road. Continue on the unpaved road until you get to the very end parking lot near Albion Basin Campground. The last mile or two of this road are in Albion Basin. From here you can either take one of the several easy to moderate difficulty hikes or simply view the display from the window of your car. The unpaved portion of the road is very well maintained and easily accessed by passenger vehicle. Parking is limited and during peak times the number of vehicles allowed in the area may be controlled.
